

Newsletter: Edition 2 - Volume 2018

Dear *Non-profit Victim's Advocate, News Agency Professional, Law Enforcement Officer & Public Safety Legislative Representative;*

History has repeatedly proven that Citizen's united by a common cause can overcome the most insurmountable odds to beat back swelling epidemics of oppression, exploitation and abuse.

Our nation's most vulnerable persons; the elderly, women, children and those whom due to circumstance are powerless to help themselves and need the compassionate assistance of those whom can help. Like your organization we have undertaken this enormous challenge. Our platforms provide innovative solutions by combining marketing, education, research, unity initiatives, fund-raising, legislative signature drives and *Citizen-to-Citizen (C2C)* public safety reporting technologies.

For educational purposes we are seeking permission to link to your organization's publicly available online resources in the categorized sections of our vulnerable person software suite, public safety technology tools and integrated platforms. The enclosed complementary *Whistle Drive*™ is one of several of these resources, it also provides a gateway to the accompanying technologies. In exchange we would like to accurately base our research methodology by speaking with your organization to learn how our products and services can dynamically evolve to suit a nationwide common mission to assist vulnerable persons.

The attached business card information, links and PDFs on the *WhistleDrive*™ itself (demo version 1.0) explain in greater detail the demographic of whom we assist, a few early phase research objectives, educational material, the problems, solutions and benefits offered. As an additional feature realize that these public safety tools can be custom branded via appearance and content to adapt to any public safety organization's specific objective, their direct linked fund-raising & donation payment gateways, legislative petition campaigns — all while still being united by the common cause of each cross-agency participant. This program began in Idaho and now includes Washington and will be expanding to other states where there is need or demand. It will soon be promoted nationally.

Like your enterprise our motives our genuine, we truly do want to assist our nation's most vulnerable persons and will continue to labor to do so. The challenge is enormous, however by working together greater rewards can be more effective and attained with greater ease. We hope you agree and share our passion to work together for the common benefit. Please contact us or be prepared when a CPSN advocate contacts your organization to learn more on how our research efforts can be better suited to achieve your organizations specific goals to raise awareness, foster unity and assist vulnerable persons.

Genuinely,
